** ANTARCTICA [non]. 28536, Jan 2 at 2300, no sign of LU1ZV on USB, the ham station at LRA36, but worth checking as in EiBi: while LRA36 itself be inactive on 15476, not even listed, how about these `broadcasts` on 10m, USB? The very last items in the huge file which always loads more rapidly than Aoki:
28536 2200-2212 Fr-Su ATA LU1ZV LRA36 Bulletin S ATA e
28536 2300-2312 Fr-Su ATA LU1ZV LRA36 Bulletin E ATA e
e for Esperanza
http://www.eibispace.de/dx/freq-b25.txt
Aoki still has 15476 without callsign M-F at 18-21 (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Jan 6 at 2310, another Tuesday and another `Atividade DX` in Portuguese from RAE relay by WRMI. Missed any DX news, now discussion how Telam agency has reached an agreement to supply news to R. Nacional network stations, then about a new satellite. Usual VG signal aimed thisaway from Okee (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. Re RAE via WRMI 9455, Jan 6 at 2310, ``Telam agency has reached an agreement to supply news to R. Nacional network stations`` -- Bill Tilford replies:

``You mean the agency formerly known as Telam? Milei's government closed the original in 2024 and retrofitted it as APE (Agencia de Publicidad del Estado, or State Advertising Agency). It might not be fair to compare it to OANN in the US, but it won't ever say anything naughty about Milei either. --Uncle Bill``

I did not hear APE mentioned. Suspect this was playback of a very old outdated `Atividade DX` as also evident from monitoring a few weeks ago with DX `news` about stations no longer on air. Another reply, from Richard Stoller, PA:

``In Milei's defense, Telam was always in the pocket of the "gobierno de turno" or whoever was in power, so the new version is at least more honest -- it's a government press office`` (Glenn Hauser, OK, WOR)

** AUSTRALIA. 28503 USB, Jan 2 at 2302, DU accent, says it`s 10 am local time, VK2XL. So in NSW UT+11 AEDT, QRZ.com: ``VK2XL Australia flag Australia, RJ MEDCALF, 9 BUFFALO WAY, AIRDS 2560, Australia`` - Working a WA8? (Glenn Hauser, OK, WOR)

** BRAZIL. 6180 & 11780, Jan 2 at 0750, no signals from RNA for token English; both off, or degraded prop? (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Jan 3 at 0750 UT, RNA VG S9/+20 unlike missing last night, but no token English, rather music and Portuguese. So apparently English can be UT M-F only, not UT Sat. Little if any signal on 6180 (Glenn Hauser, OK, WOR)

** BRAZIL. 28495 USB, Jan 2 at 2302, PP5KP working a VE6. QRZ.com: ``PP5KP Brazil flag Brazil, Rafael "RAFA" Capistrano, Rua Manoel Vidal, 89 - Pântano do Sul, Florianópolis, SC 88067140, Brazil`` (Glenn Hauser, OK, WOR)

** CANADA. 2598 USB, Jan 3 at 0749 UT, marine weather by YL robovoice, mentions ``south coast``. Per DXinfocentre.com/mb.htm it`s the first broadcast of the day starting at 0737 from VCP-4, Placentia. Five other Newfoundland stations/sites rotate sharing time on 2598.

2749 USB, Jan 3 at 0752 UT, marine weather by YL robovoice. Sounds same as 2598 but unlikely //, and unusually this is weaker than 2598

which is further. This is only 550 watts, while Placentia on 2598 is 3000 watts. Per DXinfocentre.com/mb.htm it`s the first broadcast of the day from VCO Sydney NS starting at 0740. Three other NS stations/sites rotate sharing time on 2749. There are two other Canadian CG frequencies further north, 2514 and 2582, but only in ``daytime`` and never heard here (Glenn Hauser, OK, WOR)

** CANADA. 24945 USB, Jan 2 at 2308, VE7WJ calling CQ 12m. QRZ.com: ``VE7WJ Canada flag Canada, Allan Campbell Ross, 790 WEST QUEENS ROAD, NORTH VANCOUVER, BC V7N 2L6, Canada`` (Glenn Hauser, OK, WOR)

** CANADA [and non]. Quite a few beacons on 10m with sporadic E reaching FM band but not to here, Jan 6 at 2321/2322: 28153, VE3IDS/B, per WGB list: ``28153.0 VE3IDS/B - Owen Sound ON CAN EN94ll - #0/2 (29 Dec 2025) Note: ID + grid + 10" off power 5w`` and:

28225, K5GJR/B: ``28224.5 K5GJR/B - Orange Grove TX USA EL17hr - #0 (02 Jan 2026) Note: ID + grid - A-99 vertical pwr 2.5w`` (Glenn Hauser, OK, WOR)

** CHINA. 7300, Jan 7 at 1553, Chinese with tinkly music background, S7/S8 and the SSOB except for 7490 WWCR. Aoki & EiBi show at 15-16 only, CNR1 jamming vs R. Taiwan International (Glenn Hauser, OK, WOR)

** COLOMBIA. 1100.29, Jan 1 at 0439, het on plus side of WTAM. Bingo, this in latest NZDX Times: ``HJAT Barranquilla has drifted up high to about 1100.28. Heard with many ID's and Colombia mentions, parallel to 1170 and web stream which was a few seconds off (Neil Kazaross via MW Offsets io Group 6/12)`` (Glenn Hauser, OK, WOR)

** COLOMBIA. 1100.28, Jan 3 at 0709, JBA carrier hetting WTAM 1100, again presumed HJAT Barranquilla, as Neil Kazaross reported a month ago. Not yet in mwoffsets but no other entry anywhere near that far above 1100 (Glenn Hauser, OK, WOR)

** COLOMBIA. 1100.28, Jan 7 at 0710, JBA het against WTAM 1100.00 et al., presumably again HJAT Barranquilla off-frequency (Glenn Hauser, OK, WOR)

** CUBA [non]. 5025, Jan 4 at 0735, R. Rebelde is off. I don`t always log it when it`s on, or dead air. Something`s always wrong at RadioCuba. Audiblizes 5020 JBA carrier already, presumably SOLOMON ISLANDS (Glenn Hauser, OK, WOR)

** CUBA. 15140, Jan 1 at 2029, RHC windhowl only, S6/S7, and 11880, at 2025, S9 of dead air as usual instead of English. Jan 1 is a major revolutionary holiday you`d think they`d do their best for once, but SAWA (Glenn Hauser, OK, WOR)

** CUBA. 9710, Jan 2 at 0451, S7/S9 of dead air from RHC, and 6000 is off the air. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA [and non]. 6000, Jan 3 at 0121, S9+25 of dead air in English from RHC; at 0130, 9710 also dead air S9+10/20 except for trace of understation, which would be CRI Spanish via Kashgar, EAST TURKISTAN, std. denunciation, and Commies vs Commies! (Glenn Hauser, OK, WOR)

** CUBA. 15140, Jan 3 at 2004, S7/9+30 of dead air direct in English, unseems howly now, and // 11880, S8/S9 dead air in English from RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760 S7/S9 // 15140 S7/9+15 with windhowl, Jan 4 at 1603, RHC IS & ID, not opening weekly Sunday Esperanto until 1604. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11880, Jan 6 at 2310, S9+10/20 of dead air from RHC. And 15140 at 2331, S9+10/20 of dead air with howl. Somethings always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA [non]. 7355, Jan 1 at 0420, Xmasmx - can this be R. Martí? Yes, // 7435, Spanish talking about Xmas. Isn`t this off-topic and a bit late? Both VG signals (Glenn Hauser, OK, WOR)

** CUBA [non]. 15380, Jan 1 at 2030, R. Martí giving SW frequencies including 11930, and again, 13605 despite the fact that 13605 is in use only during A-seasons, duh! They can`t even utter their own basic info accurately. SAWA (Glenn Hauser, OK, WOR)

** CZECHIA [non]. 5850 // weaker 7780, Jan 5 at 0617, ``The Moldau`` is playing - must be R. Prague. Yes, as on WRN sked in English relayed by WRMI (Glenn Hauser, OK, WOR)

** ETHIOPIA. 6110, Jan 2 at 0445, S7/S9 of dead air direct. Only thing sked at this time is R. Fana, starting at 0255 or 0300. Still there past 0500 into Georgia SDR. Sunrise at Ādd̄īs Ābebā was 0341 UT today, so 100 kW could still be propagating for a while longer. Something`s egregious in Ethiopia (Glenn Hauser, OK, WOR)

** FRANCE. 21580, Jan 2 at 1604, JBA signal, must be RFI in Hausa this hour, the OSOB (Glenn Hauser, OK, WOR)

** INDIA. 11900, Jan 1 at 2026, south Asian song, S5/S6 with flutter, toward end of French hour from Akashvani, and maybe intrusive English segment earlier (Glenn Hauser, OK, WOR)

** ITALY. Marconi R. International publicized a 40th anniversary broadcast Jan 4 at 1600-1900 on 7700 or alternate 7400. At 1624 into UTwente, I have JBA signals on both, 7699.861+ at S6/S7, 7400.051+ also S6/S7; which is which? By 1741, 7400 won`t lock onto anything but 7699.870+ lox with music S6/S7. EiBi & Aoki show nothing on either nominal frequency. Amid music, at 1735 announcement in English, ``Hello, Marconi Radio International...`` At 1800, JBA 7699.871+. Anyhow, 7700 & 7400 should be good clear frequency choices (Glenn Hauser, OK, WOR)

** JAPAN. 28501 USB, Jan 2 at 2324, JF1EHM IDing fonetikaly. QRZ.com: ``JF1EHM Japan flag Japan, Ishida Hiroaki, 2-5 Yoshino-cho, Minami-ku, Yokohama-city, Kanagawa, 232-0014, Japan`` (Glenn Hauser, OK, WOR)

** MEXICO. 660, Jan 5 at 0607, Mexican NA choral, then ID with full address in Monterrey. So it`s XEFZ. Despite frequent IDs as ``ABC Deportes, sabemos cómo se juega`` plays a lot of songs in English (Glenn Hauser, OK, WOR)

** MEXICO. 1090, Jan 1 at 0435 UT, Spanish over KAAY, mentioning `Grupo Mundo Mayá``, ``Multimedia``, ``la mágica de la Navidad``. Got to be one of two Mexicans, in IRCA Log:

``XEAU NL Monterrey 5000 500 Milenio Radio, Periodismo con Carácter, Milenio Noticias 10-90 AM 24h? NWS/CHR:S? ORO Still active on AM 5/25 (logged by DXer). No FM. No longer //XHTKR 103.7FM (ex-XHFMTU).

XEHR Pueb Puebla 2500 1000 Cinco Radio, La H-R, Al Servicio de Puebla, La Señal Que Une a Puebla 24h NWS/TLK ACIR No FM. Still active on AM 8/25 per SDR monitoring. "Radar" newscast. Has used an unusual tacky instrumental version of anthem with synthesized instruments.``

Broad search indicates Grupo Mundo Maya runs hotels, etc., at archaeological sites. That correlates with cinco radio, which leads to XEHR, tho would expect closer XEAU more likely:

https://cincoradio.com.mx/grupo-olmeca-maya-mexica-ahora-se-llama-grupo-mundo-maya/
cincoradio.com.mx/en-vivo/?estacion=lahr
(Glenn Hauser, OK, WOR)

** MEXICO. 1090, Jan 5 at 0553, Spanish talk, like a financial infomercial? Mentions cuentas, and website .mx. Sounds a lot like the unID on 1100. At 0556 interjects and easily missed, ``escuchas Milenio Radio``. So it`s XEAU Monterrey NL, 5000/500 watts (Glenn Hauser, OK, WOR)

** MEXICO. Big sporadic E FM DX opening January 5, the first for me this winter. All on stock Nissan Sentra caradio with fender vertical, in real time, no RDS, no internet access or references at hand during. Everything is in Spanish with $tereo pilot, u.o.s. Times strictly UT. Researched later mainly with WTFDA FM Database info indicated after DB: km/statute miles added from distancefromto.net, city to city, not site to site. {also: in real time only, no recordings}

89.5 at 1853, Mexmx; 1902 JBA talk, 1903 ``La Lupe``: DB: XHFTI-FM Fortín de las Flores, Veracruz, 60 kW, 453m, 1947 km/1210 stmi

92.1 at 1854, Mexmx, ``Lo Mejor FM``, 1856 TC for 4 till 1. YL DJ. ``La Mejor`` - think I heard both Lo and La, in passing. At 1901, ``180 {sic?} mil watts, Córdoba, Veracruz, La Mejor``. At 1916, ``La Mejor``. At 1939: ``La Mejor, 92.1 aquí no más`` DB: XHPG-FM Córdoba Ver, 49.95 kW, 213m, 1949/1211

93.5 at 1855, Mexmx; 1905 Veracruz mentioned, CCI; at 1929 Rudolf Truro songtune, CCI; At 1936 ``Arroba-FM`` mix CCI. DB: XHPP-FM Pánuco, only one in Vcz, @FM - Arroba FM, 20.39 kW, 80.39m, 1594/991

92.3 at 1904, JBA SS talk

94.5 at 1906, Mexmx; at 1909, ``la canción de --- 94.5``, CCI

96.7 at 1906, talk about government benefit info; at 1927, talk about obras públicas

94.1 at 1911, Farmacias Guadalajara ad: national chain I think, does not necessarily mean a Guadalajara station

93.7 at 1912, Spanish music, but then English; brief capture over KSPI?

92.9 at 1912, Spanish

92.1 at 1913, kids? about los Reyes Magos. Heard this mentioned several times, i.e. imminent Jan 6, what we call Epiphany. Disney as below?

94.5 at 1915, strumming music; at 1916 ad ments La Huasteca, Tampico; 1917 Farmacias Guadalajara. DB: XHTPO-FM Tampico, Tams, La Caliente, 50 kW, 111m, 1573/977

94.1 at 1917, about crédito, El Cerrito; 1920 two stations mix, ment El Patito Suave. DB: no hits, too many stations

92.9 at 1921, Spanish JBA; at 1937, Senado PSA, ``La Qué Buena 92.9``, ads, fade. At 1940, ads, ``la cadena de radio más grande de México, 92.9 La Kebuena``. DB: no hits unless spelt ``Kebuena``: XEQ-FM CDMX 79.07 kW, 214m, 1890/1174

94.1 at 1925, KFC ad in SS, CCI praise music EE = OK

94.9 at 1926, Spanish talk

93.1 at 1931, JBA ments Alegría, CCI local deadair. There is a grupo by that name, but no hits; maybe was just ``alegría``

95.3 at 1933, M&W talk, 1:33 TC, overcomes KOKC translator

95.1 at 1935, undermodulated Xmasmx, must be Enid; later back to deadair

94.1 at 1935, ``FM 94.1``, music; not an ID per se

92.1 at 1942, ads, plug Radiodisney.com.mx, ads, Disney; 1943 bit of Indigenous language, in Suprema Corte PSA, ads Walmart, Taylor Swift; 1945 juguetes, ``92.1 Radio Disney, sólo baladas``, ``en Radio Disney, tu música te llega``. DB: XHFO-FM CDMX, CHR format, 100 kW, 134m. IIRC, the R. Disney brand disappeared a few years ago in USA. DB gets only one hit on slogan, Pasadena CA translator of KRDC 1110, outdated? 1890/1174

94.5 at 1948, classical music! quite steady reception, harp concerto, 1953 slow announcer, Opus 94 ID, lengthy phone? number starting 56-28-17-, ``Opus 94, padecía[?] sonora``. DB: XHIMER-FM CDMX 100 kW, 478.3m, 1890/1174

93.7 at 1956, YL musing with musical background; 1958 ``Escucha 93-7`` captured from KSPI, yeah, but what`s the call? No station listed with fq in slogan, but every station could say that, duh

92.9 at 1959, ads in pesos, Farmacias Guadalajara, Soriana; 2000 Electra, impossibly sped-up disclaimer, ``Ésta es ---, desde Radiópolis, aquí suena, cadena de radio más grande de México.`` Back to XEQ-FM CDMX as above. 1890/1174

95.3 at 2002, ``Amor 95,3. música romántica, XHSH-FM, 100 {sic} mil watts, Amor FM, Grupo ACIR. DB: CDMX 90 kW, minus! 20m. In this entire almost 2-hour opening, the only call-letter ID heard! I take a break at 2003-2012. 1890/1174

96.3 at 2013, Spanish JBA with 96.1 OKC ACI

97.3 at 2013, Spanish music

100.3 at 2014, YLs, ``en el capital``, fade; 2016 discussing Reyes Magos, address, RTQ for gifts; 2018 kids` wishes. At 2028, ``RTQ 100.3 Radio, rock? alternativo``. DB gets no hits searching on RTQ, but Wikipedia leads to XHQUE-FM which is in the DB as R. Querétaro, Santiago de Querétaro, Qro, 15 kW, 27.7m. This is the highest frequency in the opening, tho had been concentrating on the overfilled lower half of band. RTQ stands for Radio y Televisión Querétaro. 1774/1102

96.7 at 2021, YL TC as 2:21, about calendar?, 2022 fade, deadair pauses, ``Radio Sensación 96.7 FM`` -- that is, DB: XHPZ-FM Cd. Guzmán, Jalisco, 30.82 kW, 239.9m, 1933/1201

95.5 at 2026, Spanish talk briefly vs local 95.7 ACI

99.1 at 2027, Spanish briefly, fade

88.1 at 2030, discuss US, Ukraine, Maduro

92.1 at 2033, most have faded out except JBA Spanish here

At 2036 I quit. Per 6m DXMAP, opening continues some hours, but nexus/patch originally circa San Antonio/S Texas, just right for me,

has drifted northward closer to OK which means any DX is skpping over me (Glenn Hauser, Enid OK, WOR)

** MEXICO [non]. Re my comment that Radio Disney no longer exists in USA, Greg Hardison replies: ``Glenn: -- "92.1...R. Disney brand disappeared a few years ago in USA. DB gets only one hit on slogan, Pasadena CA translator of KRDC 1110, outdated?"

This xlator was always on 99.1; if DB says 92.1, it's wrong. 1110 is now all-Jesuspeak KWVE, in // to FM 107.9 in San Clemente. The other G H``

WTFDA FM DB shows 107.9 in San Clemente with a 530-watt low-power // of KWVE 1110, not a translator but KWVE-FM, and furthermore another booster on 107.9 dubbed KWVE-FM4, both ``in`` San Clemente, but different coordinates. The former attains 1156m HAAT, must be on a mountain. No others listed, no -FM2 or -FM3 on any frequency. Yes, the R. Disney entry is on 99.1, K256CX, not 92.1, ``relay of KRDC-1110`` (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 AM, 0417 Jan 1, pirate music with some clix, more music, S8/9 direct. Many reports here as unID or Two Dog Radio, all in USB, between 0215 and 0443: https://www.hfunderground.com/board/index.php/topic,156415.0.html

Also this: ``2 Dog Radio, 1 January 2026, 0240, 6950 USB. 0300, rendition of Rufus Thomas "Walkin' The Dog" (Sammy Hagar)? Heard it Thru the Grapevine at 0308 (sounded like Creedence Chronicle version) and Led Zeppelin at 0138 and cut off to DJ and talk at 0321. Happy New Year everybody at 0315. "Let's play some music" to some mainstream older rocker tune. Still audible but fading at 0355. Was way over S9 (rarity in Arizona). Still on after 0400, but JBA. + w/ Drake SW8 and 100' r.w. -- (Rick Barton, AZ)`` (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 21500, Jan 1 at 2032, routine bandscan hits a JBA signal here, S4, sounds like the thintonations of Josiah on Station YHWH - yet another new frequency, when nothing else is listed. Then I try several remotes around North America, and the only one getting him well is VE6JY in Alberta, accurately calibrated vs WWV 20000, showing offset about minus 19 Hz. There is also a trace line at Maryland SDR, -20 Hz. 2052 about incest and cannibalism; 2053 ID as ``YHWH, I`m Josiah Elias`` then about phony texts in Old Testament, ``Christianity - the greatest hoax ever``; usual screeds, still past 2115, up to S9+15. I let it run mostly in the background. Rarely listened to him even this much, but I daresay he makes his point in the first 10 minutes, the rest just over and over and over. Bits of music, I think his only theme, `Days of Hard Life`, appear periodically, such as 2134, 2232, 2350 and then he restarts. In fact I know at 2329 I hear him say exactly the same thing as 2 or 3 hours ago. Reception generally holds up well into the VE6JY remote, occasional fade-downs, and at 2241 apparently a brief break in transmission, but still in well when finally cut off right at 2400* (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6935 AM, Jan 2 at 2316, pirate music, S9/+10, the OPOB despite a Friday evening. These say it`s Sycko Radio: https://www.hfunderground.com/board/index.php/topic,156522.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA [non]. 21500 & 15400, Jan 2 circa 2130 & 2300, no signals from Station YHWH today, as 21500 was on 24 hours earlier, but quite possibly will show up on these again. EiBi is right on the ball, already showing YHWH on 21500 based on our monitoring Jan 1 (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6945 USB, Jan 4 at 0208, pirate song S7/S8 vs NL of S6/S7; 0210 DJ mentions Saturday evening on ===? Radio, then something about helicopters? These say it`s Band-Aid Radio: https://www.hfunderground.com/board/index.php/topic,156619.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, Jan 4 at 0652, Station YHWH is JBA. Ron Howard and Rick Barton had been reporting it on late again (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, Jan 5 at 0619, Station YHWH is on and JBA (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1680, Jan 2 circa 2100 UT, Virtual DJ Radio relay from unknown site in S central Enid is still going and audible noisily with pop music as far as downtown central Enid. Another week, another month, another year. Also the two low-power deadairs in $tereo circa downtown on 93.1 and 95.1 (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 5140 USB, Jan 7 at 1500, the Emergency Operations Net on alternate? Wednesdays resumes after holiday break. YL NCS counts up and down 12345, 54321, then roll call. Her signal is JBA in S8/9 noise level and I can`t copy accurately all the callsigns even tho spoken fonetikaly. Some called were in Beckham County, Pontotoc County. Several do not reply. Best signal comes from Bill, WSPV700 in Durant. NCS seemed to be WNBE830. Someone referred to the NCS as Brianna [sp?]. She closes the net at 1509, but then a call from WPFY721? See my previous logs on Oct 1, Dec 3, 10 (Glenn Hauser, OK, WOR)

** OKLAHOMA. 95.1, Jan 7 circa 2020, the lowpower FM transmitter in downtown Enid is still on air, and not dead right now, playing pop music, not Xmasmx; mono sound despite $tereo pilot. The weaker one on 93.1 remains deadair (Glenn Hauser, Enid, WOR)

** SPAIN. 9690, Wed Jan 7 at 2257, NO signal from REE into Georgia SDR, just in time to miss weekly token English at 2300 which was missing Dec 24 & 31 due to holiday celebrations! 17715 for SAm is JBA altho in warmer months could be sufficient. That leaves 12030 for ME off the back as our best choice, but it`s insufficient at S7/S9. Could at least make out opening indeed in English; oh well (Glenn Hauser, OK, WOR)

** TURKEY. 6125 & 7285, Jan 1 at 0419, NO signals from VOT English. Must be off the air. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 5960.005, Jan 1 at 2340, VOT not off the air, S9+30/40 into UTwente with Brazilian music, `Happy New Year` in several languages but not all of them as in the 2-minute multilingual ID filler reel. And Efsun with the story about Nigel the parrot first heard several days ago (Glenn Hauser, OK, WOR)

** TURKEY. 6125, Jan 2 at 0446 check direct whether VOT be on air for English - familiar segment theme, but not in English! Sounds like Turkish. What about // 7285? NO signal there. Both were missing last night. The Turkish language frequency now is 9650, and bingo, there it is weaker // 6125, so the WRONG LANGUAGE is going out on 6125! Something`s always erroneous at Emirler. Final check at 0457 into Georgia SDR, 6125 is off (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5959.997+, Jan 2 at 2300, timesignal and s/on in English from not off the air VOT as if it`s 1330 on 13635, something`s always awry at Ankara, S9+10/20 direct. 2355 recheck into UTwente when measured, S9+35 in IS, 2356 restart IS and extraneous German ID, then off*. Something`s always erroneous at Emirler. Uncovers ChiCom music

on 5960.001-, which is still closer to exact frequency tho VOT was closer than usual and on the minus side instead of plus. Note, UTwente still displays the previous station`s exact frequency in sync until you toggle up or down and back, as a reset (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.005, Sat Jan 3 at 2336, VOT English not off the air, S9+25/40 into UTwente. Only music except for stale promos: 2336 ``always-by-your-side``, 2341 ``with-you-every-hour``, 2345 ``a-b-y-s`` again already! 2354 s/off as if it were the 1330 on 13635, something`s always awry at Ankara; 2355 IS. 2356 restart IS with German IDs, 6CI undercurrent. Still on at 0000 Jan 4 opening extraneous German, same offset and signal as above, erroneous at Emirler. 0008 music, 0012 German. 0020 two-minute multi-lingual ID filler reel but chopped off air shortly at 0021* during Russian, uncovering Chinese at S8/9+5 on slightly different offset 5959.997 (Glenn Hauser, OK, WOR)

** TURKEY. 9660.018+, Sun Jan 4 at 1744 tune-in, S9+20 into UTwente, VOT `Letterbox` already underway so missed at least one contact. Maybe tune in a bit earlier on a repeat. 1) Ivan Lebedev, St. Pete, Russia. 2) Mr Francis Mohler?, Dublin, Ireland. 3) --- Hussein ---, Pakistan with NY greetings. 4) Dr. Daniele --?, Torino, Italy. 5) Satoshi Tanaka, Tokyo, Japan. I bet there be myriads with that name. 6) finally, Mr. -- Akin? Bashir, Pakistan Listeners Club. 1759 ending, reminder that now repeats on Wednedays, 1800 theme (Glenn Hauser, OK, WOR)

** TURKEY. 9610, Jan 4 at 2138, tuning in early not to miss the start of `Letterbox` on VOT, but zero signal into UTwente, OFF the air! Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Jan 6 at 2314, VOT not off the air, music, then English about Roman history, S9+10 direct but insuff vs local noise level (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.002, Wed Jan 7 at 2259, VOT IS & ID, 2300 opening English not off the air, S9+25 into UTwente. And S9+15/30 at 2323 into Georgia SDR, as `Letterbox` is now being repeated from Sunday, but once again tuned in too late, missing first few minutes. Ends at 2330. Recheck at 2355, already in IS but mixing with ChiCom music at almost equal level, unusual, making SAH of about 5 Hz. 2356 restart IS with German IDs and still on at 2400 mixing timesignals, opening German mixing with ChiCom anthem, and still German past 2406. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** U K O G B A N I. 7445, Jan 4 at 0140 conversation in unID language, S9+10/20. EiBi shows it`s BBC in Dari via Woofferton at 0130-0200; Dari and Pashto alternate half-hourly from 0030 to 0300, but after 0200 site changes to OMAN (Glenn Hauser, OK, WOR)

** U S A. 275 MCW kHz, Jan 4 at 0653 UT, ND beacon HF? JBA and hard to tell whether HP. Aha, it`s really HIN, as in RNA list, `Whitney` Chadron NE, 25 watts, ``ULS WRLB2706 expires 09/03/2027 // 29Jun23 Tony reports it is mis-keying as 'HF' // 15Jan24 Tony reports it is back to normal keying`` - but not anymore. It seems these beacons have real W+ callsigns assigned to them, but never transmitted. IN if sent without a space comes out as F: ..-. (Glenn Hauser, OK, WOR)

** U S A. 293 MCW kHz, Jan 4 at 0652 UT, underneath FBY, FairBurY NE, one of my strongest and most regularly heard is another, TOR, which is: TORrington WY, 25 watts. Torrington is in SE WY, a few km from the Nebraska frontier (Glenn Hauser, OK, WOR)

** U S A. 359 MCW kHz, Jan 4 at 0658, GGF, Grant NE unknown power

(Glenn Hauser, OK, WOR)

** U S A. 379 MCW kHz, Jan 1 at 0733 UT, BRA, 100 watt NDB at `Broad River` Asheville NC. On 379 normally hear RU[E], 25 watts at Russellville AR; now maybe underneath (Glenn Hauser, OK, WOR)

** U S A. 385 MCW kHz, Jan 1 at 0735 UT, HO, 50-watt NDB at HOt Springs AR; axually tuned to 383 USB (Glenn Hauser, OK, WOR)

** U S A. 486 kHz, Jan 1 at 0152 UT into Natural Bridge VA remote, nor at 0411 UT direct, no sign of Fessenden tribute from Forest VA supposed to run for 24 hours from 21 UT Dec 31; just like last week. Wonder if anyone ever heard it? (Glenn Hauser, OK, WOR)

** U S A. With noise level down to *only* S5/S6 in this LW+ part of the spectrum, a few less usual ND beacons are audiblized, Jan 2 at 0729-0734 UT in MCW:
251, AM, Amarillo TX
255, SW, Stillwater OK - NO signal, must be off again
272, JBA carrier; as I noted Dec 2 from RNA list, possibilities:
     MI, IL, TX, IL, WI, TX, AK, Lord Howe Island
338, RYN, Tucson AZ
397, JBA carrier, most likely JE, JeffErson City MO
426, UV, Oxford MS
(Glenn Hauser, OK, WOR)

** U S A. 293 MCW kHz, Jan 5 at 0727, FBY FairBurY NE is mixing with TOR TORrington WY. Haven`t heard the latter lately until recently, was off? (Glenn Hauser, OK, WOR)

** U S A. 341 MCW kHz, Jan 5 at 0730 UT, DNI, 25 watt NDB at DeNIson TX (Glenn Hauser, OK, WOR)

** U S A. 383 MCW kHz, Jan 5 at 0734 UT, CNP, 25 watt NDB at Chappell NE (Glenn Hauser, OK, WOR)

** U S A. 414 MCW kHz, Jan 5 at 0736 UT, GRN, ? watt NDB at Gordon NE (Glenn Hauser, OK, WOR)

** U S A. 420 MCW kHz, Jan 6 at 0738 UT, TU, 25-watt NDB at `Veron`, TUpelo MS, axually tuned to 419 USB. Audible on 420 itself also PK, 25 watts at Olathe KS (Glenn Hauser, OK, WOR)

** U S A [and non]. 5550 USB, Jan 5 at 0612, NY ATC working flights, unreadable, OM keeps asking for repeats or try another frequency. EiBi shows only NY and Piarco, Trinidad on this frequency.

5574 USB, Jan 5 at 0614, YL ATC stronger than 5550. EiBi shows only San Francisco Radio CEP on 5574.

5598 USB, Jan 5 at 0615, ATC asking for call sign, working Air France 481, refers to 6628, 3016 for contacting Santa Maria, Azores. Gander, Shannon and NY are also on 5598. And some of the same on the others (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2327 monitoring: confirmed UT Thursday January 1 at 0030 on WRMI 9395, S9+10 into Maryland SDR.

Also confirmed UT Thursday January 1 at 0130 on WRMI 5010, S7/9+10 into Costa Rica SDR.

Also confirmed Thursday January 1 at 1730 on SW Radio Gold, Germany, 6160.001, S7/S8 into UTwente with heavy ACI from 6165, but 3975.001 clear S8/9+5.

Andy at SW Radio informs me there has been another schedule change for WOR on Saturdays, 1530 on 3975 & 6160 and new 2030 UT on 3975.

WORLD OF RADIO 2328 contents: a special edition: DX nostalgia by Ronny Forslund; food for thought about shortwave radio versus other media by John Figliozzi, Uncle Bill Tilford, Mike Gorniak, James Branum; what became of the mini-disc? by Greg Hardison; how radios in cars came about; Ronny Forslund on radio memorabilia; Mark Connelly on not critiquing DX stations; and no propagation outlook

WOR 2328 available from 0003 UT Friday January 2:
(mp3 stream) https://www.w4uvh.net/wor2328.m3u
(mp3 download) https://www.w4uvh.net/wor2328.mp3

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2328 monitoring: confirmed Friday January 2 at 2300 on WRMI 9955, s9/+10 and undermodulated direct.

Missed checking Fri Jan 2 at 2330 on SWR Gold Germany, 3975; anyone hear it?

Confirmed UT Saturday January 3 at 0400 on WTWW 5085, S9+20 direct but noisy with HNL of S9. Much weaker signal than usual here and to some remotes, but VE6JY in Alberta is getting it well at S7/S9, ``the ministry of... Glenn Hauser...`` 0429 a hymn and start of another before 0434* chop.

WWV: ``The estimated planetary K-index at 0300 UTC on 03 January was 3.33. Space weather for the past 24 hours has been minor. Geomagnetic storms reaching the G1 level occurred.`` Next:

0930 UT Saturday WRMI 7570 to NW;

1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2328 monitoring: confirmed Saturday January 3 at 0954 when I happen to awaken, the 0930 on WRMI 7570, S9+5/20 direct, and not on 9455 which is not even on the air between 04 & 23, yet continues to be shown on the WRMI blue System D sked. Nor WOR on any other WRMI frequency audible now.

Confirmed not on air Sat Jan 3 at 1555 the 1530 on SW Radio Gold, Germany, instead TRSW music into UTwente, but should resume next week also on 6160.

Confirmed Saturday January 3 at 1630 on WRMI 9955. S9+35 into Georgia SDR.

Also confirmed Saturday January 3 at 1700 on WRN via WRMI, 9395 at S9+35 and 7730 S7 into Georgia SDR. Usual rough start, ``Welcome to Encore`` --- then pause and change to WOR. Next:

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2328 monitoring: confirmed new time 2030 Saturday January 3 on SW Radio Gold, Germany, 3975.001, S6/S8 into UTwente.

Also confirmed Saturday January 3 at 2030 on WRN via WRMI 9395, S9+38 into Georgia SDR and not at 2100 as now shown on the System E schedule - or possibly both as not checked after 2100. Nor WRN Europe stream checked at 2100 as long scheduled there.

Not confirmed on WA0RCR, 1860 AM, MO, nominal 2030 Saturday January 3; JBA vs HNL into N9AZZ southern IL remote, and KM4RT in western TN; the closest at House Springs MO is not much better and times out at only 10 minutes allowed per 24 hours! WOR still had not started by 2045, but not unusual to be running later. TWIAR was going at 2030.

Confirmed Saturday January 3 at 2200 on WRMI 9395, S9+25/30 into Georgia SDR.

Also confirmed Saturday January 3 at 2235 the 2230 on WRMIs 17790 S9/+5 and 15770 S9+5 into Maryland SDR.

Also confirmed UT Sunday January 4 at 0258 the 0230 on WRN North America stream.

Also confirmed UT Sunday January 4 at 0412 the 0415v on WA0RCR, 1860 AM, MO, S9+10 into KM4RT remote Tipton County TN, better than closers.

Also confirmed Sunday January 4 at 0733 the 0730 on WRMIs: 5850 S9+20/25, 7570 S9+25, 7730 S7, 7780 S8, but 15770 is JBA carrier.

Also confirmed Sunday January 4 at 1135 on WRN via WRMIs 7570 S9+25 and 7780 S9

Next:
2000 UT Sunday IRRS SW via AM Italia 1323;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 9455 to NW;
0000 UT Monday WRMI 9395 to NNW;
0030 UT Monday WRMI 7780 to SW;
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2328 monitoring: confirmed Sunday January 4 at 2015 the 2000 on IRRS SW via AM Italia, 1322.999-, S8/S9 into UTwente, unusually with some undermusic CCI. mwlist quick & easy shows very few possibilities in Eu/Af/ME: 30 watts in Leeds UK; 7.5 kW in Romania, only until 1800 on Sundays, and 50 kW in Iran until 2020 which must be it.

Not confirmed Sunday January 4 at 2235 the 2230 on SW Radio Gold, Germany, JBA into UTwente, Bedford and Carlow remotes, but probably, sounds like it could be me.

Also confirmed Sunday January 4 at 2337 the 2330 on WRMI 9455, S9+25/40 direct.

Also confirmed UT Monday January 5 at 0000 on WRMI 9395, S9+15/25 direct.

Also confirmed UT Monday January 5 at 0030 on WRMI 7780, S9+5/20 into S Texas SDR. And still not on 9455, but not Viva Miami either as on sked, Judge Joe?? introduced himself and started reading something about photography.

Also confirmed UT Monday January 5 from 0401.5 on Area 51 webcast. WBCQ 5130- cut off JL at 0400 for s/off announcement; he didn`t gotta go until 0401.

Confirmed Monday January 5 at 2050 the 2030 on SW Radio Gold, Germany, JBA into UTwente and Bedford UK: sounds like me. Next:

0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2328 monitoring: confirmed UT Tuesday January 6 at 0330 on WRMI 7780, S8/9+10 into NA5C S Texas SDR,

which has a 10-minute timeout.

Also confirmed Tuesday January 6 at 1402 the 1400 on WRMI 9955, S9+20 direct.

Also confirmed Tuesday January 6 at 1510 the 1500 on WRMI 9955, S7/S9 direct.

Missed checking Tue Jan 6 at 2100 on AM Italia 1323; anyone hear it?

Also confirmed UT Wednesday January 7 at 0051 the 0030 on SW Radio Gold, Germany, 3975.002, S7/S9 into UTwente.

Also confirmed UT Wednesday January 7 at 0130 on WRMI 9395, S9/+15 into N9AZZ IL remote. Next:

2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2328 monitoring: confirmed Wednesday January 7 at 2058 the 2030 on SW Radio Gold, Germany, 3975, S7/9+10 into recommended Bedford UK SDR, inaudible at UTwente.

Also confirmed Wednesday January 7 at 2207 the 2200 on WBCQ 7490 -35 Hz = 7489.965, calibration accurate vs WWV 10000.000, S9/+10 into Maryland SDR. Next:

0030 UT Thursday WRMI 9395 to NNW {confirmed};
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.

One may also contribute, not necessarily in US funds via PayPal to:
woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, Jan 3 at 0054 into NH SDR: 3265 no signal. *0055 5130 -11 Hz = 5120.989 cuts on with IS & ID, but abnormally poor only S6/S9; 6160 -49 Hz = 6159.951 with music S5/S7; 7490 -12 Hz = 7489.988 only S3/S5! 9330.000 S6/S8. These exact readings have been adjusted, as displayed -50 Hz further down like WWV as if 9999.950. Yet after adjustment, 7490 and 5130 are not as far off as usual. By now I`m listening to ``7490`` stream. As often, FKB doesn`t get to finish his closing in less than his one-minute tonecue, chopped off by 0100 for ID, and admission by TimTron that following originally aired on May 16, 2025 - never mind, but q.v. my original log report (Glenn Hauser, OK, WOR)

** U S A. 7505, Jan 1 at 0421 undermod talk S9+10. Cannot recognize as English, so probably Hindi as sometimes on WRNO, activity very sporadic (Glenn Hauser, OK, WOR) {Reception in India unlikely}

** U S A. 1130 kHz, Jan 6 at 0755 UT, KLEY dominant music missing, KWKH audible in the mix, and some weak music from somewhere. KLEY Wellington KS has been a perpetual cheater with 250 watts day power instead of ONE watt night. Now maybe really 1 watt or off (Glenn Hauser, OK, WOR)

** U S A. 1130 kHz, Jan 7 at 0709 UT, open carrier atop, presumably

KLEY Wellington KS, starting to comeback with hefty 250-watt day power at night (Glenn Hauser, OK, WOR)

** U S A. 1290 kHz, Jan 6 at 0800, ``HD3 Peoria, your [illegible]``. WIRL Peoria IL is U4 5/5 kW (Glenn Hauser, OK, WOR)

** U S A. 1360, Jan 5 at 0545 UT, presumed KHNC Johnstown CO again with strange program, exaggerated professorial accent about Zodiac, still at 0601 but no ID, 0602 cut to a song (Glenn Hauser, OK, WOR)

** U S A. 1430, re my unID, maybe KMES Ogden UT, Tim Hall sends a clip of his catch, sounds like same ID, but complete: ``1430, KMES, Ogden, Salt Lake City, Esne Radio`` -- I guess the word is ``Esne`` as in NRC AM Log. Tnx, Tim. A deep dig into their website finally finds what it stand for rather cumbersomely: ``El Sembrador Nueva Evangelización`` Sembrador = Sower (Glenn Hauser, OK, WOR)

** U S A. 1650 kHz, Jan 5 at 0543 UT, Spanish talk, praise music atop. Only possibility is KBJD Denver 10/1 kW. KFSW Fort Smith AR, really in OK, is not really a factor here, and the only other SS is KSVE El Paso with sports. Haven`t heard it lately either, nor the tone it used to run all-night (Glenn Hauser, OK, WOR)

** U S A. 1690 kHz, Jan 4 at 0700 UT, ``Freedom 16-90, WMLB, Avondale-Atlanta`` and Townhall News (Glenn Hauser, OK, WOR)

** U S A. 1700 kHz, Jan 1 at 0801 UT, Fox Sports Radio. Got to be KVNS Brownsville TX. No sign of SS much closer and usual dominator KKLF Richardson TX, off? I see that 1700 KBGG Des Moines IA has been silent since March. Tuning down the Xband, also hear FSR mentions on 1660 KS, 1650 IA, 1640 OK, 1620 NE (Glenn Hauser, OK, WOR)

** U S A. 1700 kHz, Jan 3 at 0745 UT, ``94.5`` mentioned in English. Evidently usual dominant and closest, SS KKLF The Metroplex TX is still missing, as is KBGG Des Moines; and not KVNS Brownsville TX heard recently since it`s Fox Sports. Of the few stations left on 1700, NRC AM Log shows one with an FM on 94.5: WEUP Huntsville AL, U1 10/1 kW, in group ``Worship 94.5``. WTFDA FMDB shows that`s really W233BR in Moores Mill AL, 250 watts, urban gospel format, ``The Heritage Station 1700 AM`` (Glenn Hauser, OK, WOR)

** U S A. 1700 kHz, Jan 4 at 0206 UT, open carrier atop others, presumably KKLF Richardson TX trying to make a comeback (Glenn Hauser, OK, WOR) also see unID 1700!

** VATICAN. 15490, Jan 4 at 1515, S Asian music, OOFSOB [one of few signals on band], another example of Vatican Radio`s prowess in serving us in the opposite direxion, Malayalam scheduled. No other significant signals from Europe on 19m, and not much else except Cuba 15140 & 15230, WRMI 15770 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.59, Jan 1 at 0432 UT, JBA het against 810.00 WHB (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.57, Jan 2 at 0749 UT, het against 810.00 WHB. Meanwhile, Greg Hardison suggests: ``Glenn: – Seemingly hearing your het on 810.57, as close as I can nail it on the Orem [Utah] SDR, staying steady against the "KSFO" effluence of fascist spew. Any semblance of associated audio seems to be musical in nature, as opposed to spoken word. Of course, tho', nothing strong enough to be of any more use. KXOI [Crane TX] is certainly a viable theory, but the Lubbock SDR is offline, and if anything, there's a hi-het against WHB on the Austin SDR, that seems to be lower in freq than 810.57, with NO discernable audio – the Austin het could even be imaginary on my part; it is that measly. "Conclusion", as it were: I still have my

suspicions about KBHB Sturgis being somehow involved – for what that may be worth. KBHB featuring pop-country mx on their webstream tonight. 73z, for a judicious 2026, The other G H``

This thing has been mystifying since last February. Time to review lots of initial reports about it, within:

(Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.58, Jan 3 at 0705 UT, mystery JBA carrier hetting 810.00 stations (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 870.56, Jan 6 at 0750, JBA het against WWL (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Re 870.56, the het against WWL I logged Jan 6 at 0750, some coincidental reports; I did not hear the `tone` on the minus side as well, but on IRCA list:

``870 tone --- CHRISTOPHER DUNNE Jan 6 #51455 --- 870 – must be Cuba, the former wobbler? Heavy tone, and at my QTH it seems to be overtaking WWL.`` Reply:

``Mike Westfall Jan 6 #51466 --- Yes, strange tone on 870 last night (around 0300 when I checked). Sidebands measured at approx 869.459 and 870.547`` {EST? If so that`s 0800 UT -- gh} Mike Westfall, N6KUY "Mesa Mike", FM07su, Fluvanna County, VA, SDRPlay RSPdx-R2, 21'×70' KAZ antenna, beam 160°, null 340°, My DX Logbooks: http://mesamike.org/radio/dxlogbook/main.mvc?account=mikew
`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1100 kHz, Jan 5 at 0548 UT, Spanish music mixing with WTAM et al., pileup, YL mentions cintura = waist. Unlikely one of two remote obscure Mexicans. NRC AM Log shows only USSS: KAFY Bakersfield CA U2 4200/800 religious, also unlikely (Glenn Hauser, OK, WOR))

UNIDENTIFIED. 1190, Jan 3 at 0710 UT, ``Aquí Radio Éxitos`` – but no such slogan listed anywhere in mwlist, WRTH 2026, NRC AM Log, IRCA Mexican Log – checking not only most likely Mexico, but all of Latin America. The closest name: WLIB NYC ``La Exitosa`` -- would be surprised to hear them in OK. And, XEMBC Mexicali BCN only 250/100 watts includes ``Grandes Éxitos`` among its slogans. The XE usually heard on 1190 is XEPZ, Ciudad Juárez Chih, 1000/250 watts which is/was: ``Máxima 99.1, tu Estilo de Vida``. It would be nice if a DXer in El Paso could confirm whether it`s now called Radio Éxitos. The closest Kiwi in Truth or Consequences is too far, only trace of an 1190 signal in daytime (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Re my 1190 in Spanish, Jan 3 at 0710, ``Radio Éxitos`` suspected not to be WLIB NYC, which is ``La Exitosa``, Bruce Conti of NRC IDXD replies: ``WLIB is operating unidirectional (non-directional) at 25% power per an FCC STA which was recently extended, due to directional phasing problems. Some midwest DXers have been reporting interference with WOWO. [Conti]`` – Also, from MARE Tipsheet:

``1190, WLIB, New York, NY. 10 kW daytime, 30 kW nighttime. In place of the usual 50 kW/9.8 kW WOWO, Fort Wayne, with La Exitosa music format. English ID at 0259. “WEPN FM HD1, and WLIB AM, New York,” then repeated in Spanish. “La Exitosa” station announcement. After that, Elvis Presley singing “Silver Bells” (!) New logging. December 26. --

Bob Tarte, Lowell MI, Perseus receiver +W6LVP loop`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1220 kHz, Jan 1 at 0440 UT, ``motorboating`` sound now more rapid than before; seems equally on LSB and USB sides (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1430 kHz, Jan 1 at 0759 UT, M&W in Spanish religious talk, interrupted at 0800 for English ID, ``1430 KNPS Austin`` as I copied it. But does not correlate with anything close to Austin TX or Austin MN. There are several other minor Austins. But FCC LMS does not reach any 1430 station with such a CoL. What did I really hear? There is a KNSP in Staples MN, but it`s ESPN and nowhere near Austin. Did they say Ogden instead of Austin? KMES there in UT is SS:REL, U4 25/5 kW. Night pattern somewhat pulled in to our direxion but not a notch. No other SS:RELs look likely in the K-side of the country (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1700 kHz, Jan 4 at 0659 UT, weak Spanish in the mix. If not KKLF TX, which has been absent, or open carrier 5 hours ago, only other SS would be XEPE Tecate BC, nominally 10/10 kW, which IRCA Mexican Log says: ``TuDN Deportes, Vivimos Tu Pasión 24h SPT TUDN No FM. Active 8/25 per local monitoring, but signal strength decreased after programming flipped to TuDN Deportes. Directional antenna?`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4110 kHz, Jan 1 at 0415 UT, JBA carrier. Could be third harmonic of something on 1370 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4975, Jan 1 at 0413, still detecting the JBA carrier here with no idea where it`s coming from, unknown broadcaster, or ute? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7205 USB, Jan 2 at 2317, ham QSO in USB, not LSB, but no BFO needed since there`s a broadcast understation in AM; per Aoki both CRI Mongolian from Xianyang 59 site, and PBS Xinjiang in Uyghur from Urumqi, East Turkistan are on 7205 at this time. And there are at least JBA AM carriers just about every 5 kHz up to 7250 at least (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11472-11522 approx., Jan 2 at 1606, multi-carrier, multi-tones beating against each other, peaking S9 amid. This may or may not be pertinent to it, since never IDed:

Via Benn Kobb, FCC has informed `experimental` stations such as WL2XEE that they must start IDing in clear AM voice or Morse Code, following complaints of QRM from other spectrum users; changing policy which had ``waived`` ID requirements:

``Station ID is mentioned on both pages 1 and 2 of this letter.
https://apps.fcc.gov/els/GetAtt.html?id=389975&x=
I will also cover this in my next Experimental Radio News, coming Real Soon Now. BK`` Viz.:

``Station identification – unless specifically exempted by the terms of the station authorization, an experimental radio station shall transmit its assigned call sign at the end of each complete transmission at least once every thirty minutes in clear voice or Morse code, with all digital encoding and digital modulation disabled during station identification`` – still, listening to such noise for 30+ minutes to catch an ID would be a task. Address in NYC, but where exactly is WL2XEE? FCC LMS search can`t find it.

Broad search leads to:
https://groups.io/g/radiofromaroundtheworld/topics

Almost all of this is Richard Clifford, reposting stuff from our WOR iogroup to 15 members. Including an item about WL2XEE in Aurora IL (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11780, Jan 1 at 0425, JBA carrier. Maybe RNA Brasil on late for NY? EiBi shows nothing else at this hour. But Aoki shows both Hebrew and Turkish from Iran starting 0423; it`s been mostly inactive. WRTH 2026 shows Turkish only from 0423.

I had been bandscanning since 0413 for any signs of NYE activity from Latin America on 90, 60, 49, even 41, 31 and 25 mbs, with nothing to show for it, but I noted the local high noise levels thru my 100` E/W longwire on various bands: 90m S9, 60m S9+10, 49m S9+10, 43m S7/S9, 31m S9/+20, 25m S5/S6, 19m S3/S5 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11834.33v LSB, Jan 6 at 2311, sounds like a ham in QSO, hard to copy as exact frequency varies with modulation. Heard PP, maybe part of a callsign. As we learnt well from R. Vanuatu, third harmonix from the 75m band can show up here: this would originate around 3944.77, but stopped before I could think to check there (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15848-15902 approx., Jan 7 at 1548, multi-carrier, multi-tones beating against each other, peaking S7 amid. What is this? Same thing often around 17450, not relogged (Glenn Hauser, OK, WOR)
